□ Calcul

The image shows three handwritten multiplication problems on lined paper. Each problem is numbered in a red circle. The first problem is 451 multiplied by 7, resulting in 3157. The second problem is 306 multiplied by 7, resulting in 2142. The third problem is 782 multiplied by 7, resulting in 5474. Each problem includes the standard vertical multiplication format with a horizontal line under the multiplier and the final product.

③
451
x 7

3157
 $451 \times 7 = 3157$

④
306
x 7

2142
 $306 \times 7 = 2142$

⑤ ①
782
x 7

5474
 $782 \times 7 = 5474$

□ Orthographe

n°1 p. 114

singe (masculin) → guenon (féminin)

spectatrice (féminin) → spectateur (masculin)

écuyère (féminin) → écuyer (masculin)

prince (masculin) → princesse (féminin)

poule (féminin) → coq (masculin)

chèvre (féminin) → bouc (masculin)

espion (masculin) → espionne (féminin)

lièvre (masculin) → hase (féminin)

remplaçant (masculin) → remplaçante (féminin)
