

A diagram illustrating the addition of two 33s using base ten blocks. The first 33 is represented by one ten rod and three one units. The second 33 is represented by two ten rods and one one unit. A plus sign is between them. To the right is the number 33.

$$33 + 33 = 66$$

A diagram illustrating the addition of 33 and 14 using base ten blocks. The 33 is represented by one ten rod and three one units. The 14 is represented by one ten rod and four one units. A plus sign is between them. To the right is the number 47.

$$33 + 14 = 47$$
