

THE AI

BY ANAÏS AND MARIAM

WHAT IS AI

Artificial intelligence is a set of theories and techniques aimed at creating machines capable of simulating human intelligence. Often classified in the group of mathematics and cognitive sciences, it involves computational neurobiology and mathematical logic.

WHO IS SOPHIA ?

Sophia, activated on April 19, 2015 in Hong Kong, is a gynoid. Developed by Hanson Robotics, a company specializing in robotics, also based in Hong Kong. It was designed to learn everything by getting used to the behavior of human beings. Sophia is also able to answer questions and has been interviewed many times. In October 2017, she obtained Saudi citizenship, making her the first androgynoid in the world to receive state citizenship. It is considered one of the most intelligent robots in the world.

Sophia can drive a car and also swim like a real human Sophia is able to draw a portrait of a person freehand

DO PEOPLE LIKE SOPHIA?

SOME PEOPLE REALLY
THINK THAT SOPHIA
IT'S SOMETHING COOL
BUT SOME PEOPLE ARE
SCARED OF HER
BECAUSE SOPHIA
ALREADY SAY THAT SHE
WANT "DESTROY THE
HUMANS" AND ALSO
BECAUSE SHE IS ABLE
TO DO SOME STUFF
THAT HUMAN CAN DO
