

Dear Humans

The time has come, the weather is heating up
Our lands are disappearing step by step
the earth will be destroyed
and don't blame us
be a catalyst
or eat less meat
switch to the green power
or use clothes lines not dryer
They are the right solution
for a better world today

Refrain

How can we dance, when our earth is tur-ning
How do we sleep while our beds are bur-ning
Help the planete_
For our better life to all

So start now to help our planet
put your own in
use recycled paper
use public transports
buy fresh food and not frozen one
they are the right solution
to drop the 45 degrees

Refrain

How can we dance, when our earth is tur-ning
How do we sleep while our beds are bur-ning
Help the planete_
For our better life to all

And who is guilty?
Humans, what did you do ?
you can take a stand
We have to put back the rules
let's rebuilt the world
a fact's a fact
let's go
We are the right solution
we can say more
