#### 2. Point de grammaire + exercice : exprimer le conditionnel avec WOULD

Would est le prétérit de will

Il permet d'exprimer une supposition irréelle.

Il s'utilise avec if + prétérit (si + prétérit).

Ex: If I had a robot, it would carry my bag.

→ Si j'avais un robot, il porterait mon sac.

#### Exercise 6 Conditional

- Use the conditions and the consequences given to write about a possible life with robots.
- = Utilise les éléments situationnels et les conséquences proposés pour raconter une vision possible de la vie avec des robots.

Eg: have a robot / carry my bag → If I had a robot, it would carry my bag.

would	
sleep during the trip	reate - a robot
obey me	omestic robots - exist
(we) not control them	ar - drive automatically
house - be clean	bots - be more intelligent than humans
(we) not control them	- drive automatically

### 1. Read the questions, watch the video and answer the questions

This is a society where everybody can buy a robot that looks just like a human.  Watch the entire video. What can the robots do?  These robots can look after children, do the housework, take care of the elderly / sick people, do community service, do manual jobs.  They can do anything but there seems to be a problem with the synthetics.	LEVEL 1

## 3. Use the video and WOULD to explain what robots would do if they were perfect (just like in 'Humans')

If robots were perfect, they would rule the world.

They would replace humans.

They would take over the world.

Humans would be useless and they would become robots' slaves.
