

# Additions posées

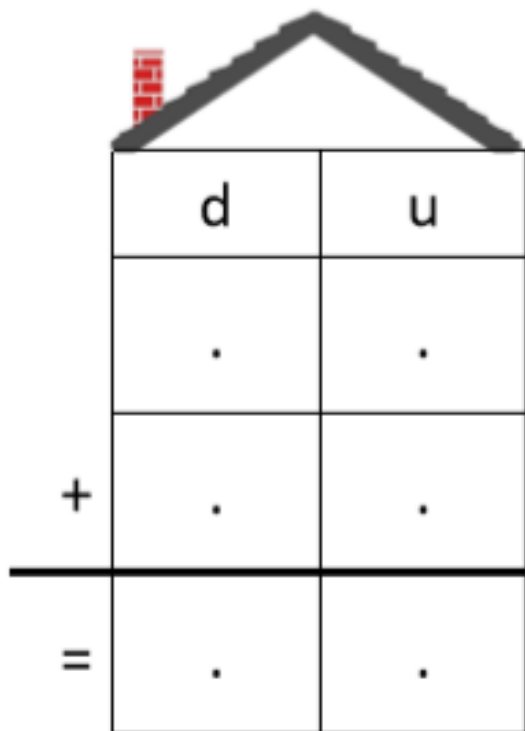

A house-shaped addition grid with a grey roof and a red chimney on the left. The grid is divided into four rows and two columns. The first row contains 'd' and 'u'. The second row contains '4' and '6'. The third row contains '+' on the left, '1' and '3'. A horizontal line is drawn below the third row. The fourth row contains '=' on the left, and two empty boxes with a dot in the center.

$$46 + 13 = \dots\dots$$

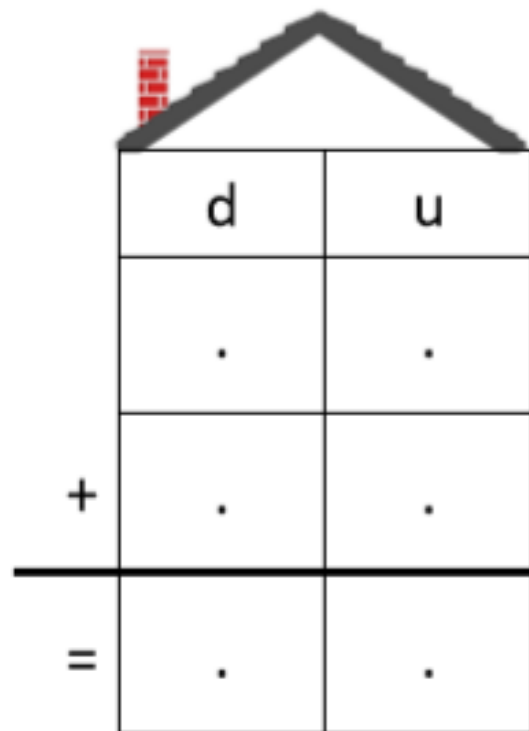

A house-shaped addition grid with a grey roof and a red chimney on the left. The grid is divided into four rows and two columns. The first row contains 'd' and 'u'. The second row contains '.' and '.'. The third row contains '+' on the left, '.' and '.'. A horizontal line is drawn below the third row. The fourth row contains '=' on the left, and two empty boxes with a dot in the center.

$$61 + 24 = \dots\dots$$

A house-shaped addition grid with a grey roof and a red chimney on the left. The grid is divided into four rows and two columns. The first row contains 'd' and 'u'. The second row contains '.' and '.'. The third row contains '+' on the left, '.' and '.'. A horizontal line is drawn below the third row. The fourth row contains '=' on the left, and two empty boxes with a dot in the center.

$$35 + 32 = \dots\dots$$

A house-shaped addition grid with a grey roof and a red chimney on the left. The grid is divided into four rows and two columns. The first row contains 'd' and 'u'. The second row contains '.' and '.'. The third row contains '+' on the left, '.' and '.'. A horizontal line is drawn below the third row. The fourth row contains '=' on the left, and two empty boxes with a dot in the center.

$$28 + 41 = \dots\dots$$
