

A MUSICAL:
It's a story which is told
with songs!

**Drama
Songs**

** Music
through
generations*

** singularities vs
solidarities*

It reminds me of the "Rolling Stones" as it's an old boys' band. They are not dead, they are about seventy years old.

MY MUM'S GENERATION

I DISAGREE with the supposition about the husband since the title evokes generations, thus it concerns children !

Maybe it's a story about a couple:
I think it's a story dealing with a mum and
-her son
-her daughter
-her husband
