RECYCLING IN HOSPITALS

1) 6 Simple Steps To Start A Hospital Recycling Program

<https://cleanriver.com/6-steps-to-start-a-hospital-recycling-program/>

Recycling can save money for the hospital? True False

Hospital medical waste only represents 20% of the total waste T F

Give three areas you can start reducing or even re-using

There are many layers of cardboard in the boxes delivered to hospitals True False

Write the list of the six different types of waste in hospitals:.....

.....

Can you do composting? What can you put in the compost?

.....

List five ways to educate the staff about recycling in the hospital?

.....

2) Watch this video and give examples of how WASTE is treated. You can put subtitles:

https://www.youtube.com/watch?v=EtXP9p_zJUA

.....

.....

.....

3) Watch this video and answer the questions: stericycle recruiting:

<https://www.youtube.com/watch?v=Jn-WaljzZk0>

What is PPE?

Why do you have to inspect containers?.....

Do the A stericycle waste plant workers rotate during the day?.....

4) Do some research to see what good it does to the environment to recycle hospital waste:

WATER

CARBON WASTE

CHEMICALS

TOXIC MATERIAL

....

SMART HOSPITALS

Nursing Duties, Responsibilities and Career Options

Source: *U.S. Bureau of Labor Statistics (BLS) Registered nurses (RNs) are required to complete at least two years of formal education and obtain a state license in order to work in a nursing capacity. Although the health care industry is changing, the Bureau of Labor Statistics predicted a growth of 16% in this profession for the 2014-2024 decade.

STUDY.COM

lilyâ

I want to become a biology technician. This job consists in doing medical analysis in a laboratory, they work with doctors, and they have to be good at medical biology, anatomy, and pathological cytology. There are many ways to reach this profession. By having a scientific and technical university degree (DEUST) . By completing a higher technician's certificate or by doing a BUT . The average salary for a beginner is two thousand five hundred euros. To do this job you have to be rigorous and know how to speak English. I want to do this job because I am curious, I am rigorous and I like teamwork.

Mariam

The video consists of talking about the nursing profession more precisely the path to becoming a nurse, the typical days of a

Biological Technician Career Video - YourFreeCareerTest.com

Iris

Later, I would like to be a nurse anesthetist in intensive care. To be a nurse anesthetist, you must have DEIA (state diploma in nurse anesthetist). This diploma is prepared by a two year study program in around thirty establishments recruiting by competitive examination. It's recognized at a master's level. The entrance examination (quite difficult) is open exclusively to nurses and midwives with two years of professional practice. It includes written and oral test. The salary is between 1900€ at the beginning and 3000€ later. I would like to do this job because it has interested me since I was little and in my life I unfortunately saw this job very closely and it confirmed my opinion even more on the job that I already loved much before.

anne-marie

I would like to be a nurse because I like to help others, provide for the needs of others.
A nurse is a person who under the direction of the doctor. She takes care of the sick, provides care .
To become a nurse you must take a nursing education (IFSI) for a period of 3years.The salary is 2000 euro. The hours are from 9:00 to 6 pm.

You can describe the video now.
It is corrected, you can learn it.

Sema

Later I would like to become a biology technician. The main mission of the biologist technician is to perform biological

analyses and to control the products of a laboratory. However, his role dose not stop there. He/she can also maintain the equipement and prepare the experiment protocols.
The biologist technician works mainly for medical biology, the agrifood, pharmaceutical or cosmetic industry, or research...

You can describe the video now.
It is corrected, you can learn it.

Tenzin

Hi I'm Tenzin from 1ère ST2S1
I want to become **nurse** ,
A nurse is someone who takes care of the sick under the direction of doctors.
All nurses are required to earn a state license by taking the National Council Licensure Examination offered by the National Council of State Boards of Nursing.
Nurses have to do physical examinations, take detailed health care histories, listen to patients and analyze their physical and emotional needs, provide counseling and health care education to patients, coordinate care with other health care providers and specialists.

***General responsibilities are to** update detail medical history of patient, to Analyze patients physical as well as preventive health, conduct physical exams, give counselling to patients, a connection between doctor and patients, draw blood, and perform health-related testing
They work in Schools, Community clinics, Outpatient clinics, Voluntary organisations, Hospitals.
They work 35hours per Week.
***Nurse work with patients of all age .**
***Qualities** needed to become nurse are empathy, patient , emotional stability, communication skills and caring .
***The Salary** is 1,520 €
thank you

You can describe the video now.
It is corrected, you can learn it.

In the future I want to be sport educator:

I want to do this job because i like sport and i like help people so to do this job i think i'm going to do STAPS after highschool and my license of STAPS have to durate 3 years. when we start in sport educator the gross salary is 1700. i want to be an educator of basket-ball because i play at this sport

Alyna

Hi !

I want to become childcare assistant.

illiam

In the future I want to be psychomotor.

The psychomotor therapist is a paramedical health professional of the body on the re-educator. In france he is recognized by a paramedical and his competence are fixed by a decree of acts since 1974. He intervenes on medical prescription with : children, adolescents, or adults. It begins with an assessment (including an interview, directed activities and test)to observe the person's functioning, assess with skill disorders and analyze the probable origins of is difficulties. Then come the steps of adapted care consisting of various proposals of exercices and activities : reflexions, body expression concentration workshops and organizaation of the activities.

The studies are 3 years to obtain the DE(state diploma) of psychomotor in traning institues that selected on competition (a preparation of years is often necessary) after the paces (first years common to health studies) note holders of license (psychology, biology, staps) can integrate by equivalency the 2nd years after examination. In the public sector, the remuneration of psychomotor therapist is about 1500 euros gross per month at the beginning of career and about 2300 gross per month at the end of career.

You can describe the video now.

It is corrected, you can learn it.

Nathanael

In the future , I want to work in the psychologist. This job consists in helping everybody in there family problems. To work as a psychologist, it is necessary to study psychology and have a diploma (bac+5). The salary is between 2300 € and 2600 €. The qualities required for the job are patience, being able to listen to person and helping other persons. The hours this job is from 9h00 to 6pm.

You can describe the video now.

I would like to be a nurse. A person who, by profession, cares for and looks after the sick, under the direction of doctors. After the baccalaureate, you have to apply to the IFSI to get your diploma. This profession consists of helping others and caring for them. We have the responsibility to take good care of the patients. We can work in hospitals or in private practice. We work 12 hours a day and our salary is 2000€ net. We work with patients of all ages and doctors. To do this job you need to be patient, have empathy and mutual assistance. I want to do this job to feel useful to society and help improve the mental and physical health of people suffering. It is also a job where you are constantly learning and where you have different opportunities for career development and environment such as EHPAD, psychiatry etc...

Claire

Later, I would like to be a childcare assistant. In maternity wards and nurseries, the childcare assistant supports the learning of infants and young children up to the age of 3, while ensuring their hygiene and comfort.
In the creche, they change the children, feed them, awaken them through various activities and teach them to walk and talk. At other times, he can console them and give them affection. It is not only a question of loving the children, but also of helping them to grow up.
The childcare assistant must show rigour, imagination and initiative. They work under the supervision of a paediatrician or a childcare worker.
After the 3rd year of secondary school, it takes one year to prepare for the DE (Diploma of Vocational Studies) in childcare, which is compulsory to practise.
The Access is based on an examination without any diploma requirements, from the age of 17. The baccalaureate and certain professional diplomas give rise to exemptions from eligibility tests. The salary is 1555 euros. The hours are approximately 8 hours per day.

lina

Later, I would like to be a nurse. The job consists in taking care of patients for example the nurse does blood tests. She takes care of children, teenagers, adults and old-aged people. The nurse can work in a hospital, in a house, in retirement homes or she can go to people's homes. The salary is 2207 dollars. she works all the time. To become a nurse you have to 3 years of school nurse. The name of school is IFSI . During 3 years you got in school in intership .
I like the job because I like listening to people, healing the sick. I like being close to families. In the job I especially love to be with the children that's why after 3 years in school nurse I wan't to specialize in nursery nurse , because the nursery nurse is only with children.

Later I would like to be a nurse in the operating room. This job is to help surgeons for their operations. My role is to give the necessary ustensils and to help him.

A nurse in the operating room earns 1790 euros per month in France .

I would like to do this job because I like helping people and there is another personal resonance. When I was small I played a lot at the doctor with my grand father and always promised my grand father that later I will help sick people.

You can describe the video now.

It is corrected, you can learn it.

Roxane

Psychologist,

A psychologist is an expert in behavior, emotions and mental health, her training allows her to understand human behavior and to know the best ways to help her clients revolve their psychological difficulties.

It is necessary to study for five years. You get a diploma at the university of psychology.

I'm here to listen my clients and help them with their problem.

The fundamental mission of the psychologist is to recognize and respect the person in his psychic dimension, and keep the professional secret.

You can work in a cabinet or in a hospital.

We have your own hourly.

In the private sector I can win 2300 euros per month, in the public sector I can win 2000 at 4000 euros.

I have to listen carefully to people and I have to be caring.

Later, I would like to be a nurse. The nurse is important to the medical team. She provides specific and hygienic care in relation to the patient's state of health : taking blood pressure and temperature, fitting dressings, taking blood, injections, preparing the patient for the operating room, distributing medication... Nurses also perform administrative tasks such as monitoring medical files. He must listen, meet families and provide psychological follow-up. This job is physically and psychologically demanding. This profession is very feminized, however 13% of nurses are men. To become a nurse, you must apply for an IFSI, those who succeed follow a three year training course through the state diploma of nursing. It is possible to evolve into a childcare nurse, anesthetist nurse, operating room nurse, advanced practice nurse, coordinator nurse. At the start of their career, the nurse receives 2026 euros in month. At the end of this career, he receives 3398 euros in month.

Camille

I would like to be nurse because it is a job I am passionate about it thanks to my mother. The salary at the beginning of the career is 2000 Euros and at the end of the career is 3000 Euros. To be nurse you have to do either a general baccalaureate or a st2s baccalaureate. Then three years in nursing school and a year of specialisation in childcare. The hours of a nurse are varied. What I like is the relationship with the patients, it is one of the qualities to be a nurse. It is necessary to have empathy, and to be with listening. This job is rewarding because the nurse supports and helps the patients and his family and the nurse is confronted with death and suffering. But despite the insufficient salary compared to the hours and the work done, I like this job. This job can be complicated because the nurse can have violent and aggressive patients verbally and physically. The nurse must know how to remain calm in any situation.

You can describe the video now.
It is corrected, you can learn it.

After my studies I would like to become a nurse. This profession consists in helping people, talking with them and identify the person need. As a study you have to do an st2s bac. I want to do this job because I love helping people, comforting them and making them forget their problem. To finish a nurse earns 2000 per month.

Roseline

After in my future life, I would like to be childcare nurse. I would like to work with children and work about health because it's my wish. The role of the childcare nurse is to determine the child's need and respond in a professional individualised and appropriate manner. She often helps children or their parents or both of them .

For all jobs they must have qualities, so for this job we must have love for children, we must be patient, we must have a sense of responsibility, we must be able to listen to people, we must have a sense of observation, we must be soft-spoken and have foresight.

The childcare nurse, can work in a hospital environment like maternity nursery nurse in the liberal sector for example the nursery also in the training sector and finally in the liberal sector this is for private childcare nurse. For this profession, it is necessary to have 5 year degree. The salary for the childcare nurse is approximately for the starting 2000 euros and at the end of their career is approximately 3000 euros. They work 9 hours for the team who works during the day and for during the night shift they work 10 hours .

I want to be a nurse.

Nurses plan and provide medical and nursing care to patients in hospital, at home or in other settings who are suffering from chronic or acute physical or mental ill health. Nurses work as part of a team of professional and medical staff that includes doctors, social workers and therapists.

The main route into qualifying as a nurse is to take a nursing degree.

The skills to be a nurse are: Caring and compassionate nature, excellent teamwork and human skills, ability to show initiative, endurance, resilience ability to handle emotionally charged.

Nurses work 35 hours per week.

The salary for a beginner is 1513 euros per month.

I chose to be a nurse because I like being in contact with people, being useful and I am very sociable.

Very good! No mistakes.

Period Poverty Statistics

Infographic

Period poverty refers to the inadequate access to menstrual hygiene tools and educations, including but not limited to sanitary products, washing facilities, and waste management.

IN THE UK

-  A survey of more than 1,000 girls found nearly half were embarrassed by their period and many were afraid to ask for help because of the stigma.
-  Menstrual products cost around £13 every month (£18,000 during a woman's lifetime).
-  Over 137,700 children in the UK have missed school because of period poverty.
-  There are 15 million women of menstrual age in the UK. 1 in 10 girls can't afford to buy menstrual products in the UK.

IN INDIA

-  Only 12% of women have access to sanitary products.
-  1 in 5 women between the ages 12 and 44 live in poverty.
-  20% of girls drop out of school due to period poverty.
-  88% of girls and women menstruators in India are forced to use homemade alternatives for their menstruations.
-  70% of women don't have access to a sanitary facilities outside home : 53% of which don't have access to adequate sanitary facilities at home.

IN THE WORLD

1,25 billion women and girls worldwide don't have access to a safe and private toilet.

526 million women and girls don't have access to a toilet at all.

In countries where menstrual poverty is very high, many women and girls are forced to use **homemade alternatives** for their menstruations like old newspaper, makeup pads, cotton wool, sock, old rag, plastic bag or torn up nappies.

During the COVID-19 pandemic :

58% of women says that they have less money to buy their periods products.

47% of women and girls find it harder to get menstrual materials compared to before the pandemic.

-  In countries where menstrual poverty is very high, many women and girls are forced to use **homemade alternatives** for their menstruations like old newspaper, makeup pads, cotton wool, sock, old rag, plastic bag or torn up nappies. 
-  During the COVID-19 pandemic : 
-  58% of women says that they have less money to buy their periods products.
-  47% of women and girls find it harder to get menstrual materials compared to before the pandemic. 
-
